If elected to Bayside council I would provide a voice for Brighton and the North Ward. The current council has to many fragmented alliances and egos making genuine representation almost impossible. My goals for Brighton would be; A stronger police presence in Brighton and the Northern ward, Improve rubbish collection and returning to the old hard rubbish collection system and Developing a lasting solution between cyclists and road users along beach road. Brighton has been neglected by its councilors for to long, we have lost a Police station and other essential community services. Enough is enough, Bayside and Brighton needs new faces and ideas.

I have been a Bayside resident since 1999. I am a mother and nurse, and work at our local private hospitals and aged care facilities. Brighton is a wonderful location to live in; secure, well positioned and catering to the needs of young families and seniors too. I want to make it possible for our children to live within the suburb that they have been brought up in; born, raised and schooled. I wish to promote organic growth within our suburban population by encouraging appropriate residential development which showcases the latest in architectural concepts and energy-efficient construction, but preserving our local heritage. Our suburb must remain a modern premier location characterised by its relevant and forward-thinking Council who provide leadership and are aware of the needs of all rate-payers. I will urge Council to direct more resources towards improving our local amenities and increase the facilities available to our seniors

As a life long resident of Bayside and Brighton Grammarian, I have grown up in Brighton enjoying the many aspects of our community. As a motorist I am fed up with the poor quality of our road management and excessive fines. Church Street and Bay Street are poorly maintained with potholes and flooding during winter. There are not enough free car parks and many of the smaller residential roads are in poor condition and need urgent fixing. If elected I would extend periods for car parking around shopping centers and train stations, so residents could support the local businesses without being fined. I would also provide more parking at the beach and shopping centers, these are community assets and should not cost money every time we go. Bayside's vibrant community deserves better service from its council, who collect our rates with very little return. Its time for change in Bayside.

Time is up for our 2 complacent current representatives. This lazy Council raise rates almost automatically by more than inflation, but Brighton bears the brunt because we contribute the lion's share to Bayside revenue. And where's the benefit? It's a litany of things not done-residential street lighting unsafe -try the laneway by Brighton station at night; dangerous uneven footpaths; child-care and kindergarten places inadequate; neighbouring councils arrange community buses for seniors-we don't; town-planning - a maze of uncertainty-The list goes on. Council is big business-\$100 million revenue - assets an unbelievable \$1900 million. I am a 24 year Brighton resident, with long-standing community commitments as a volunteer lawyer at Bayside Legal Aid, and an Honorary Director of Sandy Beach Community Centre, With 29 years experience in finance, the Stock Exchange, and deep commitment to community I can bring rigour to Council to deliver needed services efficiently and without waste.

I am married with three young children, living in East Brighton for the past 10 years. I work full time for a national retail chain. I would like to see rate increases be kept to a minimum as Bayside rates have gone up far too much over the past few years. I would like to see council commit more resources to families. More money should be spent improving council provisions of family services. Our playgrounds should be refurbished and our libraries should offer holiday programs for young children as well as It support for the aged residents. Given the increased traffic in the Brighton area, it is important that council funds additional pedestrian crossings. I am not happy with the new "on call hard rubbish collection, it creates unsightly rubbish to pile up in the streets. I want to return to the previous system of rubbish pick up.

As a mother of two young children I understand the issues that are important to local families. I am committed to providing a fresh approach to local government that balances the needs of everyone in our community. My professional background as a lawyer provides me with the skills and experience to advocate effectively, strengthening the services and amenities our community relies upon. I understand the importance of meeting the needs of local business to ensure a vibrant and sustainable bayside economy. I am also a proponent for reasonable development that enhances community amenity and complements the sustainability of our local environment. A vote for Alissa Fotiades is a vote for a reasonable and fair voice on council who will provide balanced representation to meet the needs of our diverse bayside community.

I have lived in Brighton since 1992 and love its open spaces and parks. These are essential for encouraging and enjoying outdoor living, and exercise. Progressively, over the last 10 years or so, I have seen these spaces fast disappearing. At the same time, there continues to be issues of obesity and other health-related problems in the community. I am standing for council so I can fight for our parks, open spaces and community well-being. In addition, I believe fully/freely accessible open-air gym areas in our parks, would benefit the health of everyone, young and old. I am also passionate about encouraging and supporting women entering business or public life. I believe the council could do more to support us. I have been married for 22 years and have two teenage boys. I am passionate about a healthy lifestyle for my family and the community.

Help keep Bayside low-rise and liveable. As your sitting independent Councillor, having served as both Mayor and Deputy Mayor, I will continue to protect our historic low-rise residential and commercial areas from over-development. It is possible to build intelligently, utilising well designed, ecologically sustainable buildings, without resorting to high-rise, high energy-consuming buildings merely to accommodate more population. Trees and gardens are essential to bio-diversity and help keep our cities cool and peaceful. We need to strengthen our local communities and keep our services, such as shops, schools, kindergartens and parks local, within walking distance and under community control. Our open spaces are where our children play, and must be protected from private commercialisation. I want to invest more in upgrading our aging infrastructure, particularly our drainage network. We need attractive, pedestrian friendly shopping centres. I am committed to resisting over-development, traffic congestion and increased costs which are affecting Bayside.

I am standing for council to ensure financial responsibility and to represent homeowners and small business in the Bayside area. As a life long resident of Bayside and Brighton Grammarian, I want to fight for the right decisions to be made on council for the long-term prosperity and community growth of Bayside. If I was elected I would: Drop rates for Business and Home Owners, provide effective Graffiti Removal and litter collection at beaches and stop over bureaucracy in local council, there's enough in Canberra! The current Bayside council has failed to provide solutions for lasting affordable community services and roads, with over 670 employees Bayside council has grown fat on our rates. Retailers, property owners and residents have endured increasing rate rises for very little in return. Its time to stop the rate rises, and curb the growth of council administration, Bayside deserves better from its elected officials.

I am an IT graduate and work as an IT Specialist in a major corporation. I have lived in Bayside all my life and attended Firbank Grammar school. I am standing for Council because I believe that young people should have a voice in how our city is managed and preserved for future generations. I love our beautiful, tree-filled suburbs and am deeply concerned by what is happening to them. I strongly support conservation of our magnificent foreshore and our parklands. I am very passionate about the environment, and believe that the council should take an active approach in encouraging households to live sustainably. I am opposed to large, inappropriate developments. I want to ensure that all residents of Brighton can continue to enjoy the views out of their windows without the fear of a large multi-level development being built next door.

I promise to make a difference in the community. I will respect and listen to the concerns of the constituents. I believe in making a commitment to sound fiscal management, minimising rate rises and unnecessary spending. I will promote the protection of the natural open beauty in the Bayside area. I believe in sustainable development to ensure the longevity of the historical element of Bayside, while allowing the new face of Bayside to develop. I will focus on maintaining core community services, and keep them accessible. As a long time Brighton resident, I understand the unique needs of this community and how to make a real difference.

I am standing for council to represent families, disabled and senior residents. The council should listen to the concerns of its residents and work hard to ensure that lasting outcomes are met for the community. If elected I would: Stand against privatization of our valuable community assets, provide a voice for families, disabled and elderly residents and Expand community spaces. Lets start 2013 with a new council, fresh faces and fresh ideas for Bayside.

If elected, I will work towards; Reducing rates by eliminating unnecessary expansions of council staff and stopping the waste, Fixing local roads, drains, footpaths, lighting and parking, Maintaining available and affordable services for families, seniors and disabled residents without selling off community assets, and Planning and action for the long-term community, municipal and environmental protection of Bayside. As an active member of our community and small business owner, I have experienced a council lacking balance, accountability and fiscal responsibility. There are enough funds to provide all of our community commitments without continuing annual rate rises. We have tolerated wasteful and inefficient local government for long enough, Brighton and Bayside deserve better. Please contact me regarding your thoughts and concerns about Brighton and Bayside. (0413957685) For a responsible and balanced voice on your council, Vote 1: Marcus Bastiaan for Bayside.

I am standing for council to advocate for the arts, community events, social services and better environmental policy. Bayside is a vibrant city with great cultural and age diversity, as a councilor I will ensure that all residents have equal opportunities and access to our community services and spaces. I would also work to see that community groups and events receive funding and support to further enrich Bayside. If elected, I will protect our natural assets from over-development and stand against inappropriate high-rise construction. Bayside needs a vibrant and fresh approach to council, that will work on the behalf of the people whom elected it. As a councilor I would ensure that I represented all residents in the Northern ward and protected our collection of suburbs community and environmental interests.

If elected to council I will focus on ensuring bayside keeps a progressive agenda regarding town planning and provides outcomes favorable to the Northern ward. My top concerns for council are: Stopping cyclists congesting beach road, Stopping the introduction of clearways in residential zones and improving town-planning process, ensuring outcomes are reached quicker and reflect the long term residential interests of the area. The current Bayside council needs change, there has been too much rate payer money wasted without accountability. It's time for a change, to ensure Bayside remains one of Melbourne's finest collection of suburbs.

As your sitting Independent Councillor, I will fund the immediate expansion of our Kindergartens to enable all of our 3 and 4 year olds to attend as needed. Our sporting pavilions are showing their age and I will support a rebuilding program for our pavilions and for clubs like the Brighton Life Saving Club. I want to ensure that boys and girls have equal access to change rooms. I will vigorously oppose high rise high density developments in our residential streets which threaten the character of our suburbs. I will support the return to twice yearly hard rubbish pick up. I want to improve street lighting in many of our streets. I want to see rate increases kept to a minimum and for any increases to be directed towards improvement of services for residents. I will look for alternative sources of income to take the pressure off our ratepayers.
