**Letter to residents, Point Avenue and Beach Road
Friends of Ricketts Point Landside
Beamaris Conservation Society**

This letter is to inform you Council shall be installing a line of bollards along the Coastal Crown Land Reserve at the end of Point Avenue and in front of the properties 401 and 402 Beach Road (see diagram over).

These bollards are designed to provide a safety barrier and assist Council and Vic Roads inhibit encroachment onto and help protect the Coastal Crown Land reserve.

In conjunction with these works Council shall be mulching and revegetating a section of the area between the gravel road and cliff top. In addition, as indicated on the diagram over, we shall replace the now damaged picnic table.

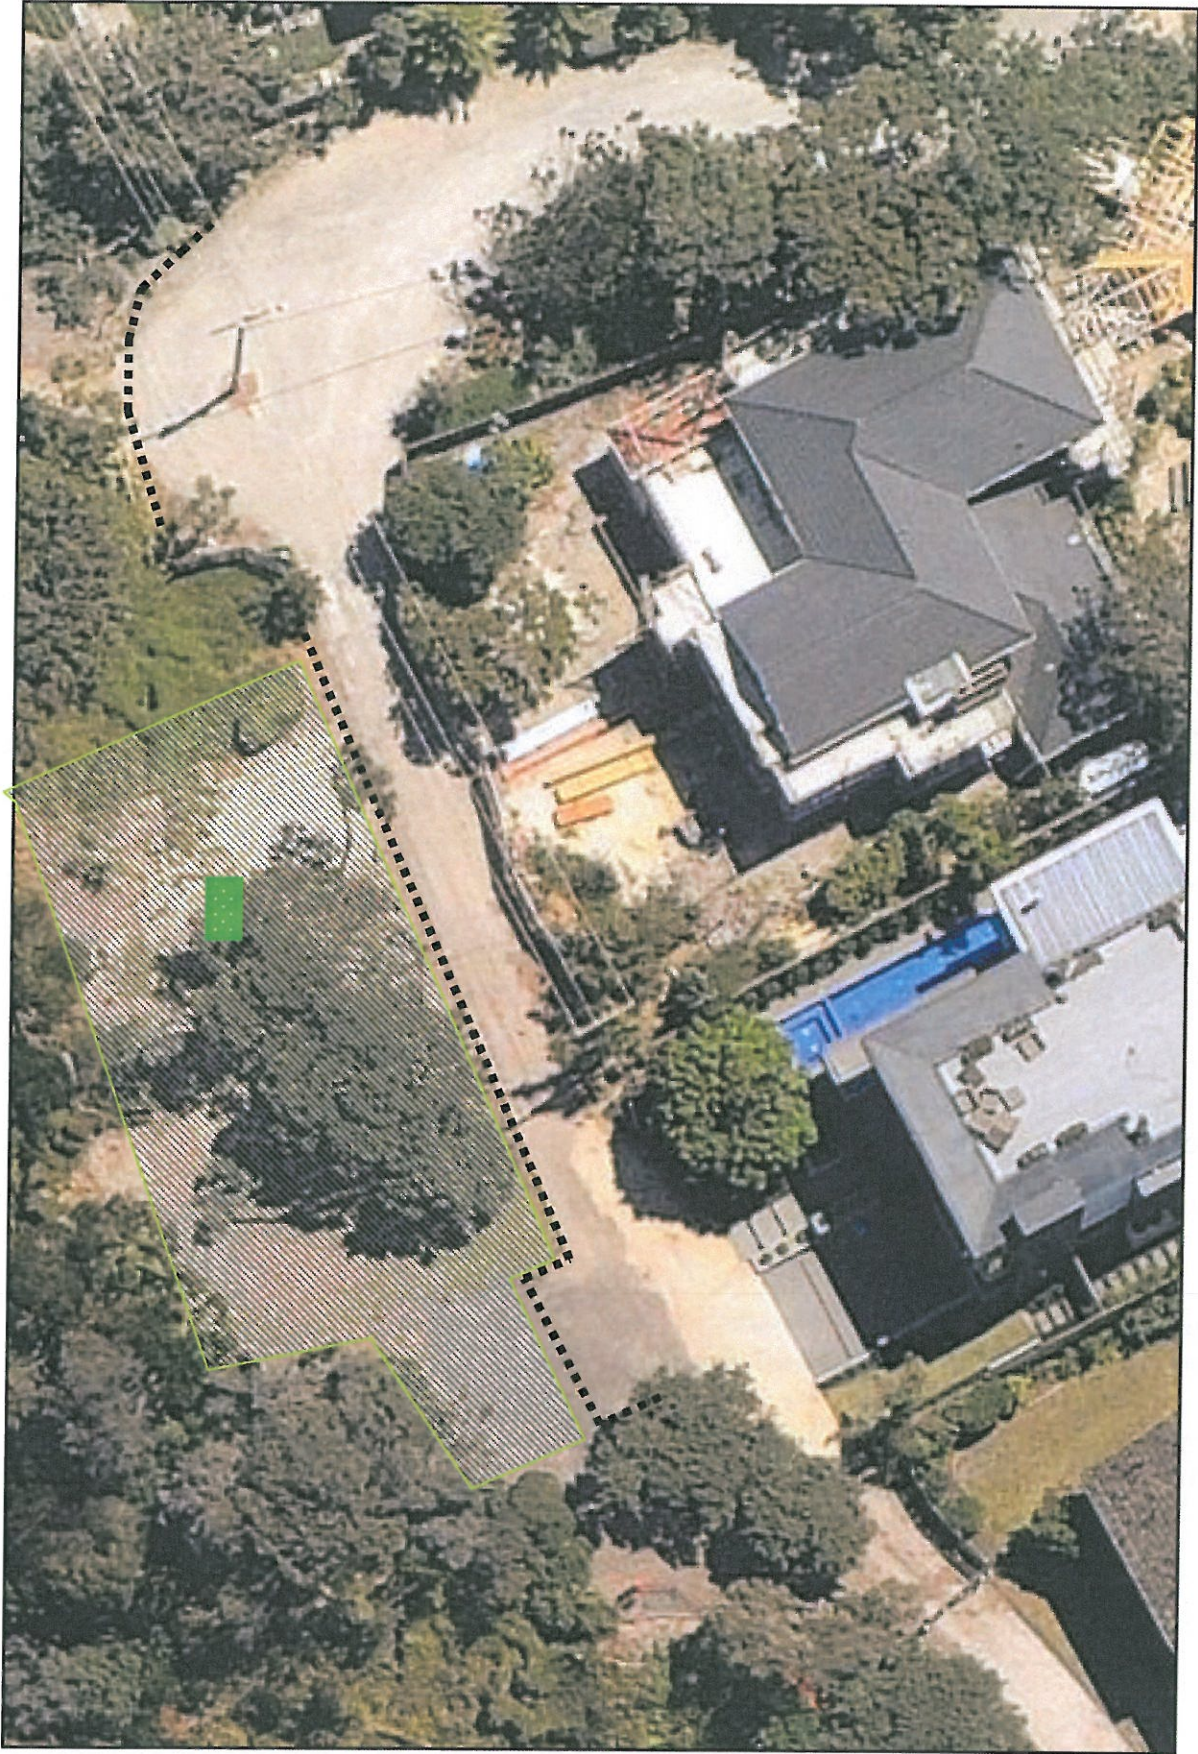

Council has sought and received permission from Vic Roads for these improvement works.

We expect to be carrying out these works within the next 6 weeks. In the immediate short-term a temporary barrier shall be installed.

Should you wish to be involved in these improvement works please call Parks Officer Damian Carr on 9599 4444.

Figure 1: Proposed Point Ave Works

- Indicative location of timber bollards at approx. 1.2 metre spacings
- ▨ Indicative area for revegetation and mulch
- Proposed picnic table, to be located under shade
